

Integrated Delivery

Covance Clinical integrated delivery provides strong project leaders and a trusted team of operational professionals for reliable study conduct. Discover our various solutions within integrated delivery, as well as proof points that show our effectiveness.

Solutions

Your Project Management Team

Our Project Management Center of Excellence, with roughly 1,500 project managers, is dedicated to on-time delivery of quality results within budget. We have expertise in risk mitigation strategies, and our people are empowered to own and drive their projects and make critical decisions necessary to overcome challenges.

Innovative Delivery

We make trials more convenient for study subjects with wearables, patient service centers and hybrid virtual trials.

Flexible Outsourcing Models

We offer FSPx, Standalone and Full Services to meet the outsourcing needs of sponsors.

Robust Monitoring Solutions

We have six robust individual products that work together or apart to tackle risk and meaningfully improve the quality, time and cost of the clinical oversight process. These drive efficiencies in costs and resources.

Evidence-based Performance Metrics

These demonstrate our ability to deliver studies on time with great efficiencies associated with our monitoring solutions.

Proof Points

- Achieved database lock milestones in last 8 of 8 years¹
- In all phases of Oncology studies, bested our milestones by an average of 35 days¹
- In all phases of Oncology studies, outperformed the market by 4.2 months²

¹ Covance Governance Records

² Site Activation to Last Patient In (Phase I-IV)
